CORONAVIRUS/COVID-19 PATHOLOGY

Regarding the significant emergency involving the Covid-19 pathology, our company informs that as of today there has been no known cases of infection among our employees. Considering the safety of our employees and of those who access the company for work reasons (customers, suppliers of goods and services, etc.), the situation has been constantly monitored by a specially established Crisis Management Unit (UDC) including the company physician, Dr. Giuseppe Colli.

In addition, Fedegari has implemented appropriate risk mitigation means, in strict compliance with the laws and regulations of the Italian Ministry of Health, through the adoption of specific protocols for extraordinary cleaning of the premises for common use such as the canteen, the changing rooms, workstations etc.

Employees residing in the so-called outbreak areas have been contacted and will not be admitted to the company in accordance to the measures issued by the Italian Government.

Those who need to access the company will be requested, through the adoption of specific procedures and questionnaires, to confirm that they have not been in contact with people from China and other places where cases of infection are documented. In case of doubts, we request to consult the website:

- <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports>

Anyone who joins the company (employees, customers, suppliers, etc.) must comply with the indications prescribed in the following document of the Ministry of Health ("Ten behaviors to follow"): http://www.salute.gov.it/imgs/C_17_opuscoliPoster_433_0_alleg.pdf

For complete information, we recommend to consult the websites of the Ministry of Health: <http://www.salute.gov.it/nuovocoronavirus> and the World Health Organization: <https://www.who.int/>.

Fedegari reserves the right to protect the health of its employees and to preclude anyone from entering the office in the presence of risk conditions.

Through the UDC, Fedegari will constantly assess the evolution of the situation and adopt the measures that are necessary to protect the health of its employees.

All employees are requested to respect and enforce the provisions issued, avoiding the generation of unnecessary alarms or panic.
